Cigniti Technologies provides critical medical equipment to the Gynecology Facility at the Government MNJ Institute of Oncology, Regional Cancer, Hyderabad, India.

March 2023, Mumbai: As part of its CSR initiative, Project Cignificance, Cigniti Technologies, the world's leading AI and IP-led Digital Assurance and Digital Engineering services company, extended its support to the Government MNJ Institute of Oncology, Regional Cancer in Hyderabad, India. Cigniti provided crucial healthcare and essential medical equipment for a gynecology unit supporting women cancer patients from marginalized communities.

Cigniti Technologies has always been at the forefront of supporting healthcare initiatives. This latest contribution reflects our commitment to supporting this facility with essential medical equipment like ICU beds, Ventilators, Multi-Channel Monitors, Infusion Pumps, Ultrasound Portable, Colposcope, air conditioners for the room, and many more. This equipment will enable them to offer more advanced care and medical attention to the patients.

The facility was inaugurated by Mr. Raghu Krowidy, CDO at Cigniti Technologies in the presence of Mr. Sairam Vedam, CMO at Cigniti Technologies, and Mr. Midhun Pingili, Sr. Director of Marketing at Cigniti Technologies. Mr. Mayur Patnala, Founder and CEO of Nirmaan Organization, and Dr. Jayalatha, Director of MNJ Institute of Oncology and Regional Cancer Hospital, graced the occasion at the hospital.

By collaborating with Nirmaan Organization, Cigniti aims to reduce the stress on the existing public healthcare system caused by the increase in gynecology-related cases, such as delivery cases in Mother and Child hospitals and tertiary hospitals. This assistance will deliver better healthcare, minimize gynecology referrals to private/tertiary hospitals, and offer a green channel for women on a walk-in basis to decrease the waiting period. With this support, the facility will be able to provide medical attention to at least 1,000 marginalized patients annually.

MNJ Cancer Institute to support patients from marginalised sections

PNS ■ HYDERABAD

The Mehdi Nawaj Jung (MNJ) Institute of Oncology, Regional Cancer Hospital in Lakdikapul received a range of modern equipment to support and provide crucial healthcare for women cancer patients from the marginalised communities. The equipment was provided by Cigniti Technologies, an IT company, as part of its CSR initiative called Project Cignificance, on Friday.

As part of the initiative, MNJ's Gynecology unit was furnished with essential medical equipment like ICU beds, ventilators, multi-channel monitors, infusion pumps, ultrasound portable, Colposcope, air-conditioners, among others. This equipment allows the institute to offer more advanced care and medical attention to the patients. The facility will now be able to provide medical attention to at least 1,000 marginalised patients annually.

The facility was inaugurated by Raghu Krovvidy, CDO at Cigniti Technologies, in the presence of Sairam Vedam, CMO at Cigniti Technologies, and Midhun Pingili,

Senior Director of Marketing at Cigniti Technologies. Mayur Patnala, Founder and CEO of Nirmaan Organisation, and Dr Jayalatha, Director of MNJ Institute of Oncology and Regional Cancer Hospital were also present.

Cigniti collaborated with Nirmaan Organisation to reduce the stress on the existing public healthcare system caused by the increase in gynecology-related cases, such as delivery cases in mother and child hospitals and tertiary hospitals.

This assistance is set to deliver better healthcare, minimise gynecology referrals to private/tertiary hospitals, and offer a green channel for women on a walk-in basis to decrease the waiting period.
