Cigniti Expands Its Global Footprint with Opening of an Office in Singapore

Business Wire

SINGAPORE -- June 30, 2021

Cigniti Technologies, world's leading Independent Quality Engineering & Software Testing Services company, today announced the opening of their first office in Singapore. With this new expansion, Cigniti further extends its global footprint in the Asia Pacific region to meet the growing digital transformation needs of leading enterprises based in the region.

"Cigniti is recognised globally for its innovative approach to assisting enterprises in their Quality Engineering and Digital transformation initiatives leveraging proprietary IP, AI & ML driven frameworks and highly agile & DevOps development methodologies. As more and more enterprises in the Asia Pacific region look towards aligning their transformation roadmaps to leverage the benefits of next-generation technologies such as RPA, Automation, AI, Cloud and IoT, Cigniti is committed to providing customers with the insights, advisory and services they need to accelerate their digital and business transformation, and drive higher ROI from their QA initiatives," said Nanda Padmaraju, Cigniti's head of RoW business. "This is a key milestone for us and we are keen on investing in the region, leverage the diverse hi-tech talent available locally and help towards further strengthening the QA community in the region," he added.

"As we looked at expanding our presence in Asia Pacific, Singapore was a natural choice as it is a global business hub, with great connectivity, technologically sophisticated infrastructure, and overall a very supportive business ecosystem and government," said Srikanth Chakkilam, CEO, Cigniti.

We already are working with several leading enterprises in Singapore as their strategic quality engineering partner, and our new office in the heart of Singapore will enable us to be more agile and responsive to the needs of our clients in the region and serve them better.

About Cigniti: Cigniti Technologies is a Global Leader in Independent Quality Engineering & Software Testing services. Cigniti's 2,900+ experienced professionals are spread across US, UK, Canada, Australia, India, UAE, and South Africa. We are a strategic quality engineering partner for leading global organizations and assist them in accelerating time-to-market by predicting and preventing unanticipated failures, leveraging AI-driven, proprietary Continuous Testing & Test Automation solutions, with customer-centricity at the core of the transformation. Our test offerings are Quality Engineering, Advisory & Transformation, Digital Assurance, and Quality Assurance solutions.
